

Jair Alexis Mera Toasa

hello@devjaes.dev | linkedin.com/in/jair-mera-dev | devjaes.dev | [AWS SAA \(Verify\)](#)

Professional Summary

Mid-Level Full Stack Engineer specializing in **Ruby on Rails** and **React/Next.js**, with a proven track record of building scalable APIs, optimizing high-traffic web applications, and delivering SaaS solutions for the U.S. market. **AWS Certified Solutions Architect** experienced in designing event-driven architectures and performance tuning. Highly proficient in English and accustomed to async-first remote environments, combining strong testing discipline with AI-accelerated workflows to ship reliable production code fast.

Experience

Full Stack Engineer (Ruby on Rails & React)

Nov 2024 – Present

Senirop (Consultancy)

Remote / Ecuador

- **TAPinto.net (High-Traffic US News Platform):** Shipped full-stack features across a platform serving millions of users. Optimized backend cache layers and tuned Ruby background jobs to resolve performance hotspots, integrating dynamic ad-serving and complex payment gateways.
- **Greenfield CRM Platform:** Architecting a new CRM system end-to-end using a **Rails API** backend and **React 19** frontend. Defined strict API contracts, custom hooks, and scalable component patterns.
- **Legacy Architectural Migration:** Led the migration of an enterprise ERP from a legacy monolith to a Clean Architecture model (Rails API + React) in <2 weeks, reducing technical debt ~60% with zero data loss during complex PostgreSQL schema migrations.
- **Team Leadership & Quality:** Implemented reusable E2E testing architectures using Playwright. Mentored 3 junior developers through code reviews and TypeScript/Rails best practices.

Back End Developer

Mar 2024 – Aug 2024

Development Dynamics (Contract)

Ambato, Ecuador (Hybrid)

- Designed and implemented **15+ scalable RESTful API endpoints** from scratch using **NestJS + TypeScript**, strictly defining data models, DTOs, guards, and complex business logic.
- Established rigorous testing culture, writing **50+ Jest unit/integration tests** to achieve **>85% code coverage** on mission-critical API paths.

Full Stack Developer

Dec 2023 – Sep 2024

Technical University of Ambato (Gendocs V3 Project)

Ambato, Ecuador

- Led a 4-person Agile team in building a **Next.js + NestJS** document management system capable of handling thousands of academic records.
- Architected an **event-driven async processing system** using **BullMQ queues**, slashing document generation time from ~30s to ~9s (**70% performance improvement**).

Full Stack Developer

Mar 2023 – May 2023

Ambivalence Clothing (E-commerce)

Ambato, Ecuador

- Developed a responsive, end-to-end e-commerce platform using **Next.js + TypeScript**, handling dynamic catalogs, secure cart management, and seamless checkout flows.

Technical Skills

Core Languages: Ruby, TypeScript, JavaScript, SQL, Golang

Backend & Cloud: Ruby on Rails, Node.js (NestJS/Express), REST APIs, Microservices, Event-driven (BullMQ, SQS/SNS), **AWS** (Lambda, S3, EC2, DynamoDB), PostgreSQL, MongoDB

Frontend: React 18/19, Next.js, Vite, Tailwind CSS, TanStack Query

Testing & DevOps: Jest, Playwright, Docker, Git, GitHub/Gitlab Actions (CI/CD)

Languages: English (**B2/C1 - Highly Proficient**), Spanish (Native)

Certifications

AWS Certified Solutions Architect – Associate | *Amazon Web Services* | *Verify on Credly*

Apr 2026

- Cloud architecture, Security & IAM, high availability, and the AWS Well-Architected Framework.

Honors & Awards

3rd Place - Advanced Programming Contest | *Hatary Shunko Innovation*

Apr 2025

- Developed a financial solution with AI integration in a cross-functional team of 4.

1st Place Winner - Algorithm Challenge | *Technical University of Ambato*

Apr 2023

- Solved complex algorithmic challenges using TypeScript, showcasing strong analytical problem-solving skills.

Education

Bachelor of Software Engineering

Technical University of Ambato

Expected Graduation: Dec 2026

Ambato, Ecuador
